Queue Way® was formed by a dedicated team of professionals with many years of experience in the crowd control industry. Their goal is to provide high specification products with full safety features at a market leading price. Be aware many commercial stanchions do not have any safety features. The Queue Way® includes a built-in braking system and also incorporates a locking-belt end to avoid accidental release.

L83-549 .... $4.50

Counter

Photoelectric Sensor

SenSource Non-Directional People Counter System – *Miniature sensor with articulating bracket and reflector for easy mounting and alignment*

- A cost-effective basic non-directional wired people counter
- Each time the beam is broken, the wall mount LCD will increment by one until reset to zero
- The system includes a sensor, one reflector, LCD display and power display
- 7-year battery backup prevents data loss in case of power failure
- Magnetic reset to prevent tampering
- IR Sensor Range: 0.1 to 20 Feet
- One year warranty

L10-403 .... $535.00

SenSource People Counter

This SenSource Counter is stand-alone and battery-operated, with a six-digit LCD counter and internal data logger. This system consists of a photoelectric infrared beam transmitter and receiver, which can operate up to 30 feet apart in front or side-firing modes. The counter will increment as the invisible IR beam is broken, regardless of the direction of the traffic. The unit has a group counting feature, counting groups as one unit, instead of by individual. A child-resistant universal mounting bracket enables operation in front or side firing modes. Easy data collection is available, using either the LCD display or built-in data logger. A USB Software Utility is included, to export data into a Microsoft Excel environment.

L10-400 .... $938.00

Shopguard Wireless People Counter

This small and affordable people counter uses a separate transmitter and receiver to accurately count people up to 13 feet between counters. Number of passages is shown on the counter's LCD screen. No special battery required, simply uses 4 AA batteries (not included). Dimensions: 3-3/4"H x 2"W x 1"D. One year warranty.

L10-290 .... $695.00

AccuraCounter
– *Non-directional stand alone people counter*

- AC Power Counter – no need to worry about replacing batteries
- Standalone Patron Counter – walk to the counter to read the total count and reset to zero
- Can be used in CHIME mode or silent mode
- User can enter a divisor to automatically divide by 2 or some other value
- Sensor sends a safe and invisible infrared beam to the reflector installed opposite the sensor
- Comes fully assembled and wired ready to count
- Professional industrial counter easy to install, easy to align, easy to use and easy to maintain
- IR Sensor Range: 0.1 to 30 Feet
- One year warranty

L10-357 .... $795.00

Wireless Annunciator with Dual Counter

An invisible dual infrared beam triggers a pleasant sound and registers a count on the digital counter when the infrared beam is interrupted. Different chimes let you know entrance or exit of people. Each event is counted and recorded by the built-in digital counter and can be viewed and compared later. The annunciator is equipped with an Alert Mode which sounds the bulit-in siren when adding additional security.

Specifications:

- Advanced dual-infrared beam and wireless technology
- 20 ft. detection range across doorway
- Independent entry/exit counters
- Wireless multifunction receiver
- 200 ft. RF transmission range
- 4 digital counter
- Power failure memory backup

L10-895 .... $410.00

Tally Counter
– *With removable base*

Sturdy 4-figure hand-operated reset counter with special removable mounting base. Heavy-gauge steel case and base chrome plated to resist corrosion.

L10-261B $29.15

3M Tattle-Tape™ Security Strips for Print Media

3M Tattle-Tape™ Security Strips can be desensitized and then resensitized to full strength repeatedly. This ensures complete protection for the life of the materials they're protecting.

Tattle-Tape™ Security Strips B1

Single sided strips are designed for hardcover books. Strips can be easily inserted into book spines with a bayonet either on a counter top or right in the stacks. Strips are completely concealed. **1000 per package.**

LDS-B1... $340.00 pkg.

Tattle-Tape™ Security Strips B2

Ultra thin, double sided strips are designed to be applied between pages of books and periodicals. The extra-long liner makes it easier to insert the strip deeply into the gutter, making it virtually undetectable. **1000 per package.**

LDS-B2... $310.00 pkg.

Tattle-Tape™ Security Strip R2

Applied with the Tattle-Tape™ application system, these strips are in roll format with no liners to remove. They're automatically dispensed and can be applied to print materials five times faster than traditional strips.

Cat. #	Description	Price
LR-2	7500 per roll	$2169.00 roll
LR-2500	2500 per roll	1049.00 roll

Bayonet for Strip Insertion

L4969 .... $5.90 ea.

3M Tattle-Tape™ Security Strips for Non-Print Media

Easy and discreet protection for all your library materials, including magnetic media. Literally billions of books, cassettes, CDs and other materials are now being protected from loss by these highly effective strips. Their design and 3M stringent quality control ensures your complete satisfaction.

Tattle-Tape™ Security Strips DCD-2

These precision balanced strips are designed for CDs and CD-ROMs. The easy, one-step application process integrates two strips into a clear film overlay that prevents removal and protects the surface of the disc. Strips will not affect performance. **200 per package.**

LDCD-2...................................... $445.00 pkg.

Tattle-Tape™ Security Strips DAC-1

These strips are designed for unboxed audio-cassettes. **1000 per package.**

LDAC-1.. $385.00 pkg.

Tattle-Tape™ Security Strips DVM-1

These strips are designed for unboxed video-cassettes. **1000 per package.**

LDVM-1.. $495.00 pkg.

764 Resensitizer
– For books and other printed material

Resensitizes print materials in one pass. No need to lift items—a smooth, fluid motion does it. Green light signals item is being resensitized. Dimensions: 4-3/8"H x 12-1/4"W x 5-1/2"D.

L764 .... $1995.00

930 Desensitizer
– For printed material, CDs and DVDs

Fast and efficient for high-volume checkout only operations. Portable; adapts to virtually any checkout configuration. Non-electric—no need to locate near power source. Dimensions: 1-1/2"H x 5"W x 10"D.

L930 .... $485.00

Carmac® Electromagnetic Security Strips
– 100% compatible with 3M and other Electromagnetic Security Systems!

Our featured Carmac® Electromagnetic Security Strips give you quality security while saving you valuable budget dollars. After repeated desensitizing and resensitizing, the security strips will not lose their effectiveness. The security strips feature an archival-quality adhesive, which is water based and non-acidic to provide years of protection without damaging your books or library materials. The 6-1/2″ strips have a 4″ tail for a quick removal of the liner. The single-sided strips insert into the spine of hard cover books. The double-sided strips inserts deep into the gutter of books and periodicals. **1000 per package.**

Cat. #	Description	Price
L90-097	Single Sided – 5″ Strips	$160.00 pkg.
L90-098	Double Sided – 5″ Strips	160.00 pkg.
L90-099	Single Sided – 6-1/2″ Strips	175.00 pkg.
L90-100	Double Sided – 6-1/2″ Strips	175.00 pkg.

Archival EM Security Strips *– Excellent value and compatible with all EM Systems Sentry®*

Technology use a non-acidic adhesive to meet strict preservation and archival standards as specified by Metropolitan Toronto Reference Library and now used by the Library of Congress in the United States. This adhesive has a neutral pH value. "ANSI" paper meets ANSI 39.48 Specifications.

Tail Tags are double-sided adhesive strips with tails; they are used for paperback books, journals, magazines and some hardcover books. Tyvek® paper backing offers extra concealment to the security strip. Longer tails provide easier, better handling—and tails don't stretch. Fully compatible with other EM Security Systems. **1000 per package.**

Tail Tags – 5″ Strip double-sided with Tails
L11-950 .... $240.00 pkg.

Spine Tags are single-sided adhesive strips usually inserted down the spine of a hardcover book. Comes in easy to handle sheets of 10 strips each. This means no fiddling with individual backing strips when applying strips to your collection. Fully compatible with other EM Security Systems. **1000 per package.**

Spine Tags – 5″ Strip single-sided Clear
L11-800 .... $225.00 pkg.

CD/DVD Tags Protect CDs and DVDs with security labels that fit directly over the compact disc in a one step application. Two strips are integrated into a clear film overlay; strips are positioned at right angles for superior detection with your security system. Fully compatible with other EM Security Systems. **100 per package.**

CD/DVD Tags – 4″ Security Strips
L11-936 .... $170.00 pkg.

Highland™ Security Strips *– formally Checkpoint*

Guaranteed to provide excellent detection in electromagnetic security systems. **Strips for Books and Periodicals:** Single-sided adhesive for insertion into book spines, Double-sided adhesive are for placement in between the pages of the books or periodicals. Strips are packaged individually and feature a convenient tail to ease removal of liner. **AV Strips:** Sized especially for use with audio and video cassettes. **1000 per package.**

Library Detection Systems

Sentry® Technology Book Detection Systems offer a reliable and versatile way to protect library books, magazines and AV materials. Sentry® Technology has secured thousands of school, public and academic libraries around the world.

Call our projects department at 1.800.268.2123 for details and current pricing.

ProSentry™ Model

SENTRY **NEW!**

RF Systems – *ProSentry™ Model*

ProSentry™ RF systems are engineered using advanced digital electronic designs ensuring accurate reliable detection of all tagged items. The systems are easy to service and are available in single, dual and multiple corridors. Systems are safe for all library materials are virtually free of phantom alarms, and offer 100% compatibility with any RF detection system or tag currently installed in libraries.

ProSentry™ Model .... Call for details

SENTRY **NEW!**

RFID Systems – *Insight™ RFID Detection System*

RFID Detection Systems are available in single, dual and multiple aisle configurations. Programmed to ignore the presence of materials from other libraries or retail stores, the system detects and identifies only library items that have not been properly checked-out. Any number of items can be read simultaneously. Systems have audible and visual alarms and patron counters. The GateKeeper™ remote administration software monitors alarm events on the network and from a remote location.

Insight™ RFID Detection System .... Call for details

Insight™ RFID Detection System

MM™ Model

SENTRY **NEW!**

EM Systems – *MM™ Model*

Flexible, reliable and affordable, the Sentry® MM™ system is perfect for school and public libraries. The system offers an adjustable aisle width detection zone, single, dual and multiple corridors and a wide range of installation options. Remote electronics ensure reliable operation. Audible and visible alarms alert library staff to unauthorized removals. Systems are safe for all library materials, are virtually free of phantom alarms and offer 100% compatibility with any EM detection system, strip or deactivator currently installed in libraries.

MM™ Model .... Call for details

WAM™ Model

SENTRY **NEW!**

EM Systems – *WAM™ Model*

Wide Aisle Management (WAM™) detection systems provide the widest corridors in the marker today. Antennas can be placed 36″ to 60″ apart. WAM™ systems include a built-in patron counter, as well as audible and visible alarms to alert library staff to unauthorized removals. Systems are available in single, dual and multiple corridors and offer a wide range of installation options. Remote electronics ensure reliable operation. Systems are safe for all library materials, are virtually free of phantom alarms and offer 100% compatibility with any EM detection system, strip or deactivator currently installed in libraries.

In addition to reliable detection WAM™ systems have a modern sleek design. Panels are configured with wood and plexiglas finishes that can be customized to match any decor.
